

EIT needed for Environmental Firm in Austin

Baer Engineering and Environmental Consulting, Inc. is looking for a highly motivated and talented Engineer-in-Training (EIT) to join our team.

We are a small environmental consulting firm with an excellent reputation for employee and client satisfaction, and dedication to quality since 1992. We have an interdisciplinary team of engineers, geologists, biologists, archaeologists, and industrial hygiene professionals. We work on a wide array of projects including but not limited to assessing environmental impacts of proposed design projects, storm water and wastewater management, sustainable design, subsurface investigations, and industrial hygiene. Our major clients include local industry, contractors, City of Austin, and U.S. Army Corps of Engineers. This type of exposure is a great opportunity for an EIT to gain a wide range of experience that may not be offered by a larger firm. The successful candidate will be mentored by experienced staff. We are looking for someone who has an interest in evaluating proposed and existing facilities for regulatory compliance, sustainable building design, wastewater and storm water management, and preparing user-friendly plans and documents for our clients.

Typical responsibilities include, but are not limited to:

- Assist with the preparation of preliminary investigations, plans, & technical reports.
- Perform facility and site inspections.
- Prepare calculations and documentation for oil spill prevention plans, LEED™, erosion and sedimentation control plans, traffic control plans, and drinking water systems.
- Prepare permitting application packages with local and state agencies.
- Strive to build long term and effective relationships with clients and the team.

Education/Experience:

* Bachelor of Science degree in Engineering, Civil or Environmental is preferred

* One to two years of applicable work experience is preferred

Skills and Special Requirements:

* Excellent writing skills. A part of your interview will be to write a short essay on a general topic to be selected at the time of your visit.

* Proficiency with AutoCAD is preferred

* Experience with construction plan sets is preferred

* Engineer-in-Training (EIT) certification or scheduled to take the exam

If you are interested in talking to us about possible employment, please send a copy of your resumé, cover letter, salary requirements, and list of engineering projects (school or otherwise) to:
