

EIT Needed for Environmental Firm in Austin

Baer Engineering & Environmental Consulting, Inc. is looking for a highly-motivated, self-reliant, and talented Engineer-in-Training (EIT) to join our team. Founded in 1992, Baer Engineering has an excellent reputation for employee and client satisfaction, and dedication to high-quality deliverables.

Our interdisciplinary engineers, geologists, biologists, archaeologists, environmental scientists, and industrial hygiene professionals work on a wide array of interrelated projects including, but not limited to, assessing environmental impacts of proposed project designs, stormwater and wastewater management, sustainable design, subsurface and hazardous materials investigations, threatened and endangered species assessments, archaeological investigations, and asbestos and lead consulting.

Typical projects range from local site development and Brownfield assessments to base-wide compliance planning for the U.S. Army Corps of Engineers. This type of exposure offers an excellent opportunity to gain a broad range of experience that may not be offered with large firms. We are looking for someone with a general background and myriad interests.

Typical responsibilities include, but are not limited to:

- Assist with preparation of preliminary investigations, plans, and technical reports.
- Perform facility assessments and site surveys.
- Prepare calculations and documentation for Erosion and Sedimentation Control Plans, Spill Prevention Control and Countermeasure Plans, Facility Response Plans, and the like.
- Prepare permitting application packages.
- Strive to build long-term and effective relationships with clients and Baer team members.

Education:

Bachelor of Science degree in Environmental, Civil, or Chemical Engineering

Skills:

- Excellent writing skills required
- Proficiency with AutoCAD desired
- Engineer in Training (EIT) license (or eligibility to take exam) required

Experience:

Interested candidates should send a resume and cover letter, noting the types of projects for which you have experience, or for which you desire to gain experience, to:

HR@baereng.com
